ABSTRACT

This bibliography reflects the teacher center experience of the past several years and provides a reference pool for those interested in developing and/or improving teacher center programs. The materials cited are listed alphabetically by author and cover many different aspects of centering, including something of the experience in several other nations. Most of the publications cited were written during the past five years, but older documents have been included if they address high priority teacher center issues or represent benchmark studies or statements. A subject index cross-references the citations under 29 major topics. Standard bibliographic citations have been supplied for all materials. Citations of documents announced in ERIC's journal of abstracts, RESOURCES IN EDUCATION, are followed by an ED accession number; an EJ number follows journal articles announced in CURRENT INDEX TO JOURNALS IN EDUCATION. Most ED entries are available from the ERIC Document Reproduction Service; a current order form is included. Items generally were not included unless they could be obtained either as study documents or for permanent collections. Some of the main sources for the documents are identified in Appendix A. Appendix B lists periodicals found to be helpful to those interested in teacher centers. (MM)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

The Clearinghouse is funded by
the National Institute of Education,
in cooperation with the following
associations:

American Association of Colleges for Teacher Education
American Alliance for Health, Physical Education, and Recreation
Association of Teacher Educators
National Education Association

The material in this publication was prepared pursuant to a contract with the National Institute of Education, U.S. Department of Health, Education, and Welfare. Contractors undertaking such projects under government sponsorship are encouraged to express freely their judgment in professional and technical matters. Prior to publication, the manuscript was submitted to the American Association of Colleges for Teacher Education (AACTE) for critical review and determination of professional competence. This publication has met such standards. Points of view or opinions, however, do not necessarily represent the official view or opinions of the Clearinghouse, AACTE, or the National Institute of Education.

FOREWORD

This bibliography represents a joint effort by the U.S. Office of Education, Division of Educational Systems Development, and the ERIC Clearinghouse on Teacher Education to meet the urgent need for information about teacher centers. The past few years have seen a proliferation of teacher centers, and there is every reason to believe that others will be created in enthusiastic response to the federally funded Teacher Center Program, which appropriates \$75 million during each of the next three years to plan, establish, and operate such centers.

Directors of the Teacher Center Pilot Projects collaborated with the Division of Educational Systems Development, USOE, in compiling materials for the bibliography. Citations for documents and articles contained in the ERIC data bases, Resources in Education (RIE) and Current Index to Journals in Education (CIJE), were then incorporated. Mary F. Crum of the National Council for the Social Studies, who has worked with the Division on other projects, carried major responsibility for pulling together the work of all the authors. In keeping with the Clearinghouse's commitment to providing informational products on subjects of current concern to the education profession, the bibliography is being published as the sixth in its series of Bibliographies on Educational Topics (BETS).

Standard bibliographic citations have been supplied for all materials. Citations of documents announced in RIE are followed by an ED number; an EJ number follows journal articles announced in CIJE. Most ED entries are available from the ERIC Document Reproduction Service; a current EDRS order form is included at the end of this bibliography. Journal articles are not reproduced by ERIC in any form; to secure those articles, the reader is referred to the original journals, available in many libraries.

The knowledge base on the subject of teacher centers is constantly expanding, and the Clearinghouse invites the submission of additional documents for evaluation and possible input into the ERIC data base. Also welcome are reader comments and suggestions.

Karl Massanari
Clearinghouse Director

When i drift
through the fog
of ignorance,
i thrust through
the unknown
in search of some
solid ground,
(at least a familiar
reed!)

but the confusion
closes in--
and with desperate
humility
i grasp for
bibliography!

February 1977

INTRODUCTION

The purpose of this bibliography is to reflect as fully as possible the U.S. teacher center experience of the past several years and to provide a rich reference pool for those interested in developing and/or improving teacher center programs. Although the kinds of centers represented vary greatly--and few of them exactly fit the center concept to be supported under the new Federal Teacher Center Bill¹--existing centers have collectively accumulated a great deal of valuable experience in some of the most critical problem areas of teacher centers and inservice education. Careful attention to the lessons they have learned should go a long way toward expediting the development of strong, effective centers--whatever the model or nature of the center involved.

In order to give broad substantive coverage and represent the views of as many centers, institutions, and organizations as possible, the decision was made to develop a relatively comprehensive listing of what is available, rather than to construct what would necessarily be a much shorter annotated bibliography.² The materials cited cover many different aspects of centering--including something of the experience in several other nations. Because most of the publications explore more than one teacher center topic or issue, organization of the references according to specific categories would require a large number of multiple listings. Therefore, all entries are included in a single, alphabetical numbered list.

It is not expected that the reader will peruse all citations from A to Z in search of the most promising sources (although such a search might provide some education, edification, and other important surprises). A topical index following this introduction cross-references all bibliography items within 43 specific categories. Because there was no time to study and fully assess all the materials, many publications are not cross-referenced as comprehensively as they might be. We apologize both to those whom we have "under-indexed" and to those from whom we have wrung too much.

Items generally were not included unless they could be obtained either as study documents or for permanent collections. Some of the main sources for the documents listed are identified in Appendix A. These organizations either have a large array of centering materials on hand or have some facility for helping interested persons locate needed publications and resources. Appendix B lists periodicals found to be helpful to those interested in teacher centers. This listing is only a beginning in an effort to identify such resources; the authors realize that countless others exist, and welcome information about any serial publications concerned entirely or in large part with centering.

¹Authorized by Section 532 of the Higher Education Amendments of 1976.

²An Annotated Bibliography on Teacher Centers will be available from the U.S. Office of Education after April 1, 1977.

Most of the publications cited here were written during the past five years, but older documents have been included if they cover high priority center issues or represent benchmark studies or statements. Although some of the titles may seem unrelated to teacher centers, each of the entries was reviewed and nothing was included unless it contained important references to centering; for example, a publication with a title referring only to "open education" would likely discuss that concept in relationship to teacher centers.

Finally, despite a thorough search of the literature and the help of over a hundred center directors, it is certain that many good materials were overlooked.³ Readers are encouraged to submit materials for the teacher center reference library, and/or citations of materials that should be included in any future bibliographies.

ABOUT THE SUBJECT INDEX

The following subjects were used for cross-referencing the bibliography.⁴ They should provide the reader with some levers for sorting through this long listing of materials. Under each topic are the numbers of some, not all, of the entries that relate to that particular topic. For those categories that include large numbers of entries (such as "Philosophy/Rationale/Theory"), further sorting can occur by cross-referencing them with other categories (for example, "Subject Specific/Mathematics").

1. Systemwide Overviews

 - b. State
 - c. Local
2. General (covers many aspects of centering)
3. History
4. Philosophy/Rationale/Theory
5. Organizational Structures
6. Management/Staffing Patterns
7. Program/Curriculum Development
8. Participation Incentives
9. Governance
10. Finance/Support Systems
11. Evaluation/Assessment
12. Research

³The largest category of omissions are of publications from local centers. Had all materials received from directors been included, the bibliography would have doubled in size. Therefore the authors generally chose to include the best single or several publications from each center.

⁴Criticism of the outline would be welcomed by the authors, as the Office of Education Teacher Center Reference Library will be organized along similar lines, and recommendations for improvement will help in refining what is hoped will become an important reference center for those engaged in the development and operations of teacher centers.

29. Certification/Accreditation

As we have always found, all educators contacted were most helpful. In addition to the more than a hundred center directors who sent us materials, citations, and considerable advice, especially important contributions were made by the staff of the ERIC Clearinghouse on Teacher Education; Alanson Van Fleet, Cleveland State University; Susan Grkovic, Education Consultant; Linda Tague, University of Indiana; and Sam Yarger, Syracuse Teacher Center Project. But although all of the energetic educators listed did most of the important work, the editor and co-authors accept full responsibility for any errors of judgment or representation regarding both the content of the bibliography and its indexing.

ABOUT ERIC--EDUCATIONAL RESOURCES INFORMATION CENTER

ERIC

ERIC is a nationwide information system of the National Institute of Education (NIE), designed to serve and advance American education. Its basic objective is to provide ideas and information on significant current documents (such as research reports, articles, theoretical papers, tested methods, published or unpublished conference papers, newsletters, and curriculum guides or studies) and to publicize the availability of such documents. Each clearinghouse focuses its activities on a separate subject matter area; acquires, evaluates, abstracts, and indexes documents; processes many significant documents into the ERIC system; and publicizes available ideas and information to the education community through its own publications, those of Central ERIC, and other education media.

CLEARINGHOUSE ON TEACHER EDUCATION

The ERIC Clearinghouse on Teacher Education, established June 20, 1968, is sponsored by four professional groups--the American Association of Colleges for Teacher Education (AACTE) (which serves as fiscal agent); the American Alliance for Health, Physical Education, and Recreation (AAHPER); the Association of Teacher Educators (ATE); and the National Education Association (NEA). The Clearinghouse scope is the preparation of education personnel and, since March 1973, selected aspects of health education, physical education, and recreation education.

ACQUISITIONS

One of the main tasks of the Clearinghouse is the acquisition of documents within its scope. The Clearinghouse regularly receives publications from schools and professional associations around the country. But the majority of documents must come unsolicited, from researchers, teachers, and project directors who have produced or are producing materials within these subject areas. All documents sent to the Clearinghouse are evaluated by subject experts. If they meet Clearinghouse selection criteria, they are abstracted and indexed for announcement in the abstract journal, Resources in Education (RIE). The majority of RIE documents are then made available for study on microfiche at over 600 locations (universities, public libraries, professional associations, government agencies) that have an ERIC microfiche collection. Documents can usually be purchased in microfiche or "hardcopy" (xerographic reproduction) from the ERIC Document Reproduction Service (EDRS), P. O. Box 190, Arlington, VA 22210.

GENERAL INFORMATION

1. PRICE LIST

The prices set forth herein may be changed without notice; however, any price change will be subject to the approval of the National Institute of Education Contracting Officer.

2. PAYMENT

The prices set forth herein do not include any sales, use, excise, or similar taxes which may apply to the sale of microfiche or hard copy to the Customer. The cost of such taxes, if any, shall be borne by the Customer.

Payment shall be made net thirty (30) days from date of invoice. Payment shall be without expense to CMIC.

3. REPRODUCTION

Express permission to reproduce a copyrighted document provided hereunder must be obtained in writing from the copyright holder noted on the title page of such copyrighted document.

4. CONTINGENCIES

CMIC shall not be liable to Customer or any other person for any failure or delay in the performance of any obligation if such failure of delay (a) is due to events beyond the control of CMIC including, but not limited to, fire, storm, flood, earthquake, explosion, accident, acts of the public enemy, strikes, lockouts, labor disputes, labor shortage, work stoppages, transportation embargoes or delays, failure or shortage of materials, supplies or machinery, acts of God, or acts or regulations or priorities of the federal, state, or local governments; (b) is due to failures of performance of subcontractors beyond CMIC's control and without negligence on the part of CMIC; or (c) is due to erroneous or incomplete information furnished by Customer.

5. LIABILITY

CMIC's liability, if any, arising hereunder shall not exceed restitution of charges.

In no event shall CMIC be liable for special, consequential, or liquidated damages arising from the provision of services hereunder.

6. WARRANTY

CMIC MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY MATTER WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.

7. QUALITY

CMIC will replace products returned because of reproduction defects or incompleteness. The quality of the input document is not the responsibility of CMIC. Best available copy will be supplied.

8. CHANGES

No waiver, alteration, or modification of any of the provisions hereof shall be binding unless in writing and signed by an officer of CMIC.

9. DEFAULT AND WAIVER

a. If Customer fails with respect to this or any other agreement with CMIC to pay any invoice when due or to accept any shipment as ordered, CMIC may without prejudice to other remedies defer any further shipments until the default is corrected, or cancel this Purchase Order.

b. No course of conduct nor any delay of CMIC in exercising any right hereunder shall waive any rights of CMIC or modify this Agreement.

10. GOVERNING LAW

This Agreement shall be construed to be between merchants. Any question concerning its validity, construction, or performance shall be governed by the laws of the State of New York.

11. DEPOSIT ACCOUNTS

Customers who have a continuing need for ERIC documents may open a Deposit account by depositing a minimum of \$200.00. Once a deposit account is opened, ERIC documents will be sent upon request, and the account charged for the actual cost and postage. A monthly statement of the account will be furnished.

12. STANDING ORDER ACCOUNTS

Customers who desire to receive microfiche copies of all ERIC reports announced in each issue of Resources in Education may do so by depositing \$2000.00 or submitting an executed purchase order. The cost of each issue and postage will be charged against the account. A monthly statement of the account will be furnished.

13. PAPER COPY (HC)

A paper copy (HC) is xerographic reproduction, on paper, of the original document. Each paper copy has a Vellum Bristol cover to identify and protect the document.

14. FOREIGN POSTAGE

Postage for all countries other than the United States is based on the international Postal Rates in effect at the time the order is shipped. To determine postage allow 60 microfiche or 60 (HC) pages per pound. Customers must specify the exact classification of mail desired, and include the postage for that classification with their order. Payment must be in United States funds.

OTHER ERIC COLLECTIONS AVAILABLE FROM EDRS

STANDING ORDERS

Subscription orders of microfiche copies of all ERIC reports announced in each issue of Resources in Education average \$160.00 per month at the rate of 8.7¢ per microfiche. Postage extra.
